

LEVEL TRANSMITTERS • FLOAT AND CAPACITIVE

Capacitive Level Transmitter

II-LT-008

Capacitive probe

Full specification, variants, open points and ordering information. A probe rod that measures the electrical capacitance between itself and the liquid — level without moving parts.

Capacitive Level Transmitter

Indiana catalogue ID **II-LT-008** Level Transmitters · Float and capacitive

IDENTIFICATION

Product	Capacitive Level Transmitter
Indiana catalogue ID	II-LT-008
Category	Level Transmitters · Float and capacitive
Measuring principle	Capacitive probe
Model line	IP66 · 4–20 mA
Document	Specification · issued 24 October 2026

01 As stated in the manufacturer listing

Principle	Capacitive liquid-level sensing
Output	4–20 mA
Protection	IP66
Duty named	High-temperature, high-pressure liquids (no values given)

02 Open points — confirmed with the quotation

NOT STATED IN THE LISTING — CONFIRMED WITH THE QUOTATION

Probe lengths and measuring range	<i>Not stated in the source</i>
Temperature and pressure values	<i>Not stated in the source</i>
Supply voltage	<i>Not stated in the source</i>
Accuracy	<i>Not stated in the source</i>
Process connection	<i>Not stated in the source</i>
Compatible liquids	<i>Not stated in the source</i>

Each line above is a value the source documentation does not state. It is confirmed in writing with the quotation for the configuration ordered — it is not an omission from this document.

03 Applications and industries

APPLICATIONS

— Process vessels and tanks

INDUSTRIES

Chemical

General industry

- Pressurised liquid vessels (limits to be confirmed)
-

05 Ordering

Quote reference	II-LT-008
Lead time, terms, documentation	Confirmed in the quotation

TO PREPARE A QUOTATION WE NEED

— Medium and vessel or well type

— Measuring range

— Output and power supply required

— Process connection or mounting

— Quantity

QUOTATION

List the product, ID and quantity; add process conditions. We reply with a quotation.

CONFIRM BEFORE ORDERING

- Photographs, figures and wording come from the manufacturer's product listing for this family and may describe a sibling configuration; the datasheet for the ordered model is confirmed with the quotation.
- “High-temperature, high-pressure” is a description, not a rating; ask for the numeric limits.

Manufacturer product listing (saved October 2026). Figures are reproduced as listed; spec-card values and title values are shown separately where they differ. Values are reproduced from the source documentation as stated there; where a source gives two different values for the same property, both are shown with their source. Unstated values are listed under “Open points”. This document is not a certificate, and no approval, certification or hazardous-area suitability is implied.
