Ultrasonic Level Meter, Explosion-Proof Housing

Indiana catalogue ID **II-LT-005** Level Transmitters · Ultrasonic

IDENTIFICATION

Product	Ultrasonic Level Meter, Explosion-Proof Housing
Indiana catalogue ID	II-LT-005
Category	Level Transmitters · Ultrasonic
Measuring principle	Ultrasonic, non-contact
Model line	IP67 · LCD
Document	Specification · issued 24 October 2026

01 As stated in the manufacturer listing

Principle	Ultrasonic level measurement
Protection	IP67 (one listing)
Accuracy	0.5 % (one listing title)
Display	LCD
Housing	Plastic, described as explosion-proof in the listing
Applications named	Water treatment, sewage treatment

02 Open points — confirmed with the quotation

NOT STATED IN THE LISTING — CONFIRMED WITH THE QUOTATION

Measuring range and blind zone	<i>Not stated in the source</i>
Output and supply	<i>Not stated in the source</i>
Hazardous-area classification and certificate	<i>Not stated in the source</i>
Process connection	<i>Not stated in the source</i>
Temperature limits	<i>Not stated in the source</i>

Each line above is a value the source documentation does not state. It is confirmed in writing with the quotation for the configuration ordered — it is not an omission from this document.

03 Applications and industries

APPLICATIONS

- Sewage and wastewater tanks
- Water-treatment plants

INDUSTRIES

Water and wastewater

Water treatment

Environmental protection

QUOTATION

List the product, ID and quantity; add process conditions. We reply with a quotation.

CONFIRM BEFORE ORDERING

- Photographs, figures and wording come from the manufacturer's product listing for this family and may describe a sibling configuration; the datasheet for the ordered model is confirmed with the quotation.
- Explosion-proof wording appears in the listing titles. No certificate or marking is stated; confirm both before using the instrument in a hazardous area.

Manufacturer product listing (saved October 2026). Figures are reproduced as listed; spec-card values and title values are shown separately where they differ. Values are reproduced from the source documentation as stated there; where a source gives two different values for the same property, both are shown with their source. Unstated values are listed under "Open points". This document is not a certificate, and no approval, certification or hazardous-area suitability is implied.
